

SW001 HD(3G)/SD-SDI,ASI 2 x 2 Switch

The SW001 is a 2 x 2 switch, with two inputs and two outputs for each of its two outputs. So doubles as a switch and dual two output DA.

The Switch can be controlled from via Dashboard.

Features

- HD, SD and ASI
- Supports up to 3G data rates
- Switch controlled by Dashboard
- Two outputs per output channel
- Reclocking

Specifications

SW001 SERIAL INPUTS

Format	Compatible with SMPTE 292M, 259M
Reclocking on inputs	
Connector	BNC
Impedance	75ohms
Data Rates	143Mbps, 177Mbps, 270Mbps, 360Mbps 540Mbps, 1.485Gbps, 2.98Gbps

SW001 SERIAL OUTPUTS

Connector	BNC
Reclocking on all outputs.	
Impedance	75ohms
Amplitude	800mV p-p (terminated)
D.C. Offset	0V +/-0.5V
